

Receiving Text Messages to a Cell Phone Via E-mail

To receive eAlerts as text messages* to your cell phone, enter the e-mail address for your phone in the e-mail address field. Listed below are the e-mail address formats (e-mail to text) for many of the major cell phone service providers. If your provider is not listed below, please visit <http://www.notepage.net/sntp.htm> for a more complete list.
